Date: May 29, 2014

Subj: Route 27 Six Mile Run Bridge Replacement

---

### **WORK BEGINS ON ROUTE 27 BRIDGE REPLACEMENT, BUS TRAFFIC NOT AFFECTED**

NORTH BRUNSWICK - Preliminary work has begun on the replacement of the Route 27 Six Mile Run Bridge between Hidden Lake Drive and Ruth Road. At this time, there will be no impact on bus traffic as the New Jersey Department of Transportation has agreed to Mayor Francis 'Mac' Womack and the Township Council's request to delay a ban on buses, which would have taken effect tomorrow, until alternate plans are in place.

"I am pleased that the NJDOT took the concerns that myself and the Township Council had regarding the inconvenience to our township commuters into consideration," Womack said. "It would have been a nightmare for many people if that ban occurred without any reasonable alternative. By delaying the ban on buses, we will be able to formulate a plan that will provide the least impact on those who commute on the Route 27 corridor."
